Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Patient Registration Validation	Enter valid and invalid patient details in the registration form and submit.	Valid patient details are accepted. Mandatory field errors are displayed for invalid or empty inputs.	Patient registration worked successfully and validation messages appeared correctly.	Pass
FT-02	Appointment Booking Validation	Select a diagnostic test, appointment date, and time slot. Try booking available and unavailable slots.	Available slots are booked successfully. Duplicate or unavailable slots are rejected.	Booking validation prevented duplicate appointments and confirmed valid bookings.	Pass
FT-03	Diagnostic Report Availability	Login as patient and open the My Reports page after report upload.	Patient can view and download the completed diagnostic report.	Reports were displayed successfully with report status and findings.	Pass
FT-04	Workflow & Email Notification Check	Book a test and complete the appointment workflow (Requested → Confirmed → Report Available).	Status changes automatically and confirmation/report emails are sent to the patient.	Workflow executed successfully and email notifications were triggered.	Pass

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
